

Lesson 2 – Race car in the Desert

1. START>PROGRAMS>ADOBE PHOTOSHOP CS2, CS3 or CS4.
2. In Photoshop, go to FILE>OPEN. Go to the folder called Lesson 2 – Pictures and select the picture called “desert” and open it.
3. Go to FILE>OPEN again. Go to the folder called Lesson 2 – Pictures and select the picture called “race car” and open it.
4. Click the Black Arrow (Move Tool) and drag the “desert” picture over so it doesn’t block the other “race car” picture.

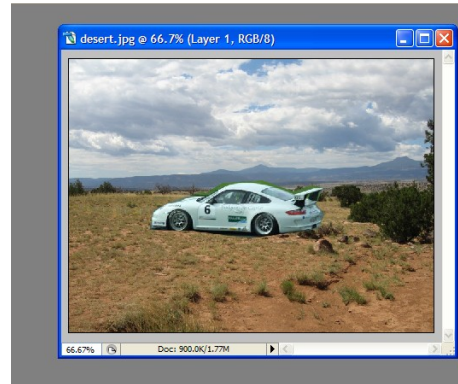

6. Click and drag the Polygonal Lasso Tool around the racecar. **Be sure to go all the way around the Race Card and end up where you started until you see the marching ants:

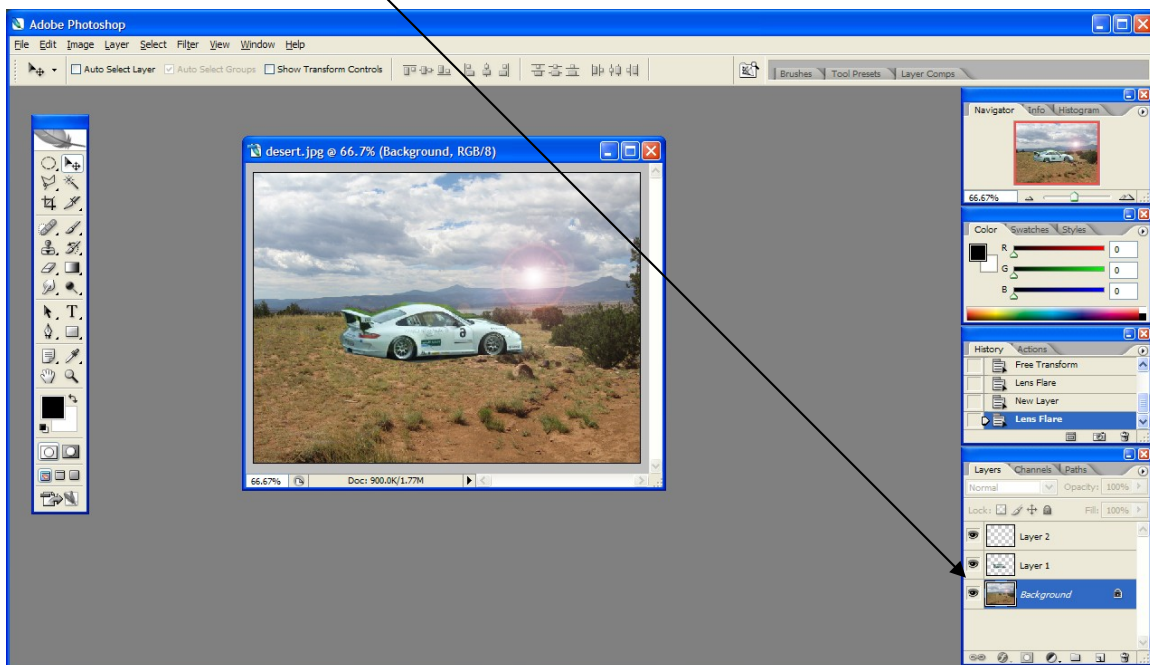

7. Select the Black Arrow (Move Tool) and drag the race car onto the desert picture.

You should get this:

8. Go to Edit>Transform>Flip horizontal so the car faces the other direction. Hit Enter.
9. Click the Background Layer on the Layers Palette.

10. Go to Filter>Render>Lens Flare and move the + a little to the left. Hit OK.

Your should get this:

Save as: desertcar
